

## Contents

<b>01 - Self-diagnosis . . . . .</b>	<b>1</b>
<b>1      Self Diagnosis . . . . .</b>	<b>1</b>
1.1    Self Diagnosis . . . . .	1
1.2    Basic information on self-diagnosis of pneumatic suspension system, two-wheel and four-wheel systems . . . . .	1
1.3    Connection of V.A.G 1551 Fault Reader and selection of the address word . . . . .	2
1.4    Clear fault memory and terminate output . . . . .	4
1.5    Select functions . . . . .	5
1.6    Technical information material needed . . . . .	5
<b>2      Can Bus . . . . .</b>	<b>6</b>
2.1    Can Bus . . . . .	6
2.2    Function of the CAN bus . . . . .	6
2.3    Testing of a "Two-wire bus system" . . . . .	6
2.4    Fault messages in the CAN bus system . . . . .	8
<b>3      Function of the two-wheel pneumatic suspension system . . . . .</b>	<b>10</b>
3.1    Function of the two-wheel pneumatic suspension system . . . . .	10
3.2    Function of two-wheel self-levelling suspension system . . . . .	10
3.3    J197 self-levelling suspension system control unit . . . . .	10
3.4    G84 self-levelling suspension system sender . . . . .	10
3.5    N150, N151 suspension-strut valves . . . . .	10
3.6    N111 self-levelling suspension system release valve . . . . .	11
3.7    V66 self-levelling suspension system compressor motor . . . . .	11
3.8    J403 relay for self-levelling suspension system compressor . . . . .	11
<b>4      Two-wheel self-levelling suspension system: Self-diagnosis . . . . .</b>	<b>11</b>
4.1    Two-wheel self-levelling suspension system: Self-diagnosis . . . . .	11
4.2    General notes . . . . .	11
4.3    J197 self-levelling suspension system control unit . . . . .	12
4.4    G84 self-levelling suspension system sender . . . . .	12
4.5    N150, N151 suspension-strut valves . . . . .	12
4.6    N111 self-levelling suspension system release valve . . . . .	12
4.7    V66 self-levelling suspension system compressor motor . . . . .	13
4.8    J403 self-levelling suspension system compressor relay . . . . .	13
4.9    Fault indication via indicator light K134 . . . . .	13
4.10   Function of self-diagnosis system . . . . .	13
4.11   Poll control-unit version . . . . .	15
4.12   Final control diagnosis . . . . .	15
4.13   Read measured value block . . . . .	17
4.14   Measured value block overview . . . . .	17
4.15   Basic setting . . . . .	20
4.16   Adaption: Activate and deactivate self-levelling suspension system . . . . .	21
<b>5      Electrical testing . . . . .</b>	<b>23</b>
5.1    Electrical testing . . . . .	23
<b>6      Fault table . . . . .</b>	<b>30</b>
6.1    Fault table . . . . .	30
6.2    Poll fault memory . . . . .	30
6.3    Fault table for self-levelling suspension system . . . . .	31
<b>7      Function of the four-wheel pneumatic suspension system . . . . .</b>	<b>36</b>
7.1    Function of the four-wheel pneumatic suspension system . . . . .	36
7.2    Function of four-wheel self-levelling suspension system . . . . .	36
7.3    J197 self-levelling suspension system control unit . . . . .	36
7.4    Vehicle-level sender G76, G77, G78, G289 . . . . .	36
7.5    Suspension-strut valves N148, N149, N150, N151 . . . . .	37
7.6    Self-levelling suspension system pressure accumulator valve N311 . . . . .	37

7.7	N111 self-levelling suspension system release valve . . . . .	37
7.8	V66 self-levelling suspension system compressor motor . . . . .	37
7.9	J403 relay for self-levelling suspension system compressor . . . . .	37
7.10	Self-levelling suspension system compressor temperature sender G290 . . . . .	38
7.11	Self-levelling suspension system operating unit E281 . . . . .	38
<b>8</b>	<b>Four-wheel self-levelling suspension system: Self-diagnosis . . . . .</b>	<b>38</b>
8.1	Four-wheel self-levelling suspension system: Self-diagnosis . . . . .	38
8.2	General notes . . . . .	38
8.3	Fault indication via indicator light K134 . . . . .	38
8.4	Function of self-diagnosis system . . . . .	39
8.5	Poll control unit version . . . . .	40
8.6	Encoding of the control unit . . . . .	41
8.7	Final control diagnosis . . . . .	41
8.8	Read measured value block . . . . .	44
8.9	Measured value block overview . . . . .	45
8.10	Basic settings . . . . .	48
8.11	Adaption: Activate and deactivate self-levelling suspension system . . . . .	52
<b>9</b>	<b>Electrical check on four-wheel pneumatic system . . . . .</b>	<b>54</b>
9.1	Electrical check on four-wheel pneumatic system . . . . .	54
<b>10</b>	<b>Fault table 4 Wheel self-levelling suspension system . . . . .</b>	<b>61</b>
10.1	Fault table 4 Wheel self-levelling suspension system . . . . .	61
10.2	Poll fault memory . . . . .	61
10.3	Fault table . . . . .	61
<b>11</b>	<b>Tyre-pressure monitoring system self diagnosis . . . . .</b>	<b>72</b>
11.1	Tyre-pressure monitoring system self diagnosis . . . . .	72
11.2	System description . . . . .	72
11.3	Description of components . . . . .	72
11.4	Safety precautions . . . . .	73
11.5	Poll control unit version . . . . .	73
11.6	Encode control unit function . . . . .	74
11.7	Safety Precautions . . . . .	75
11.8	Poll fault memory . . . . .	76
11.9	Read measured value block . . . . .	76
11.10	Adaption . . . . .	83
<b>12</b>	<b>Fault table for tyre-pressure monitoring system . . . . .</b>	<b>85</b>
12.1	Fault table for tyre-pressure monitoring system . . . . .	85
12.2	Setting-up of the tyre-pressure monitoring system . . . . .	89
