| 87 - Air conditioning system | 1 |
| 1 Safety precautions when working on vehicles fitted with an air conditioner and for handling refrigerant | 1 |
| 1.1 Safety precautions | 1 |
| 1.2 Draining refrigerant circuit | 2 |
| 1.3 Working on refrigerant circuit | 2 |
| 1.4 Painting work on vehicles fitted with an air conditioner | 3 |
| 1.5 Further information | 3 |
| 2 Notes on general repairs | 4 |
| 2.1 Note on vehicles with auxiliary heater (poor heating output) | 4 |
| 2.2 Notes on air conditioner self-diagnosis | 5 |
| 2.3 Electrical checking of air conditioner components | 6 |
| 3 Servicing refrigerant circuit | 8 |
| 3.1 General view of components | 8 |
| 3.2 Removing and installing air conditioner high-pressure sender G65 | 10 |
| 3.3 Checking pressure signal from high-pressure sender G65 | 11 |
| 3.4 O-rings for refrigerant circuit | 14 |
| 3.5 Detaching compressor from holder/attaching on vehicles with 6-cyl. engine, 8-cyl. MPI engine or 8-cyl. diesel engine | 15 |
| 3.6 Checking activation signal for air conditioner compressor regulating valve N280 | 17 |
| 4 Replacing compressor pulley | 20 |
| 4.1 Replacing pulley | 20 |
| 4.2 Detaching pulley from compressor/re-attaching | 21 |
| 4.3 Replacing pulley | 23 |
| 4.4 Detaching pulley from compressor/re-attaching | 24 |
| 5 Components for control and regulation of air conditioner not located in passenger compartment | 27 |
| 5.1 Components not located in passenger compartment | 27 |
| 5.2 Removing and installing dust and pollen filter | 33 |
| 5.3 Dust and pollen filter with activated charcoal filter element | 33 |
| 5.4 Cleaning air conditioner evaporator | 34 |
| 5.5 Removing and installing air quality sensor G238 | 37 |
| 5.6 Mode of operation of air quality sensor G238 | 38 |
| 5.7 Checking air quality sensor G238 | 39 |
| 5.8 Checking vent frame | 43 |
| 5.9 Checking and cleaning plenum chamber water drain | 43 |
| 5.10 Removing and installing intake housing with air flow flap | 44 |
| 5.11 Removing and installing air flow flap control motor V71 with potentiometer G113 | 47 |
| 5.12 Preparing adapter cables for control motor actuation | 49 |
| 5.13 Removing and installing fresh air intake duct temperature sensor G89 | 49 |
| 5.14 Removing and installing air recirculation flap control motor V113 | 49 |
| 5.15 Removing and installing cover with air recirculation flap | 54 |
| 5.16 Removing and installing fresh air blower V2 | 56 |
| 5.17 Removing and installing fresh air blower control unit J126 | 57 |
| 5.18 Removing and installing pump valve unit | 57 |
| 5.19 Operation of solar roof | 62 |
| 6 Heated windscreen | 65 |
| 6.1 Operation of heated windscreen | 65 |
| 7 Electrical checking of components actuated by the air conditioner | 67 |
| 7.1 Checking of heated rear window Z1 | 67 |
| 7.2 Checking of heated seats and seat ventilation | 68 |
| 7.3 Checking fuel-driven supplementary heater | 70 |

| | | |
|-----------|--------------------------------------------------------------------------------------------------------------------------------|------------|
| 7.4 | Checking electric supplementary heater for rear footwell | 71 |
| 7.5 | Checking actuation of heated windscreen Z2 | 71 |
| 8 | Components for control and regulation of air conditioner located in passenger compartment | 72 |
| 8.1 | Components located in passenger compartment | 72 |
| 8.2 | Removing and installing left centre vent control motor V110 | 79 |
| 8.3 | Removing and installing right centre vent control motor V111 | 82 |
| 8.4 | Removing and installing centre vent temperature sender G191 | 82 |
| 8.5 | Removing and installing sunlight penetration photosensor G107 | 83 |
| 8.6 | Removing and installing temperature sensor blower V42 | 83 |
| 8.7 | Removing and installing front operating and display unit, Climatronic control unit J255 | 83 |
| 8.8 | Removing and installing rear left footwell heater element Z42 / rear right footwell heater element Z43 | 87 |
| 8.9 | Removing and installing rear left centre console temperature sensor G311 and rear right centre console temperature sensor G312 | 88 |
| 8.10 | Removing and installing rear left vent warm air and cold air flap control motor V220 | 89 |
| 8.11 | Removing and installing rear right vent warm air and cold air flap control motor V221 | 91 |
| 8.12 | Removing and installing rear Climatronic operating and display unit E265 | 91 |
| 8.13 | Removing, checking and installing condensation drain hose | 95 |
| 8.14 | Air conditioning unit components located in passenger compartment | 97 |
| 8.15 | Removing and installing defroster flap control motor V107 | 98 |
| 8.16 | Removing and installing centre vent control motor V102 | 100 |
| 8.17 | Removing and installing front left defroster and chest vent shut-off flap control motor V200 | 102 |
| 8.18 | Removing and installing front right defroster and chest vent shut-off flap control motor V199 | 104 |
| 8.19 | Removing and installing left footwell flap control motor V108 | 106 |
| 8.20 | Removing and installing right footwell flap control motor V109 | 108 |
| 8.21 | Removing and installing temperature flap control motor V68 | 110 |
| 8.22 | Removing and installing left vent temperature sender G150 | 111 |
| 8.23 | Removing and installing right vent temperature sender G151 | 112 |
| 8.24 | Removing and installing evaporator output temperature sender G263 | 112 |
| 8.25 | Removing and installing rear left vent control motor V218 and rear right vent control motor V219 | 113 |
| 9 | Removing and installing heat exchanger of air conditioning unit | 116 |
| 9.1 | Preparation for heat exchanger removal | 116 |
| 9.2 | Removing and installing right (front passenger side) heat exchanger | 117 |
| 9.3 | Removing and installing left (driver side) heat exchanger | 121 |
| 10 | Block diagram of air distribution system | 123 |
| 10.1 | Air intake and air routing in air conditioning unit | 123 |
| 10.2 | Air routing and air distribution in passenger compartment | 125 |
| 11 | Checking cooling output of air conditioner | 128 |
| 11.1 | Prerequisites for checking cooling output | 128 |
| 11.2 | Checking cooling output | 129 |
| 11.3 | Measures to be taken if readout does not match specification | 134 |
| 11.4 | Measures to be taken in the event of temperature increase downstream of evaporator | 136 |
| 12 | Checking heat output of air conditioner and operation of pump valve unit | 138 |
| 12.1 | Checking operation of pump valve unit | 138 |
| 13 | Servicing refrigerant circuit | 141 |
| 13.1 | Servicing refrigerant circuit | 141 |
| 13.2 | Detaching refrigerant lines at compressor/attaching | 144 |
| 13.3 | Removing and installing compressor (basic information) | 146 |
| 13.4 | Removing and installing compressor (on vehicles with 8-cyl. FSI engine) | 147 |
| 13.5 | Detaching compressor from holder/removing and installing (on vehicles with 12-cyl. engine) | 155 |
| 13.6 | Removing and installing compressor (on vehicles with 10-cyl. engine, Audi S8) | 159 |

| | | |
|-----------|-----------------------------------------------------------------------------------|------------|
| 13.7 | Checking/replacing compressor drive unit | 167 |
| 13.8 | Unfastening and tightening compressor drive shaft | 168 |
| 13.9 | Removing and installing compressor drive shaft | 169 |
| 13.10 | Detaching drive plate with overload safeguard/attaching | 170 |
| 13.11 | Checking concentricity of drive plate with overload safeguard/adjusting | 170 |
| 13.12 | Unscrewing drive plate from compressor/screwing on | 171 |
| 13.13 | Removing and installing drive plate with rolling bearing | 172 |
| 13.14 | Detaching refrigerant lines from condenser/re-attaching | 172 |
| 13.15 | Removing and installing condenser | 174 |
| 13.16 | Removing and installing restrictor | 175 |
| 13.17 | Removing and installing reservoir | 176 |
| 13.18 | Detaching refrigerant lines at evaporator connection/attaching | 178 |
| 13.19 | Removing and installing evaporator | 180 |
| 13.20 | Capacities | 182 |
| 13.21 | Starting up air conditioner after charging refrigerant circuit | 184 |
| 14 | Removing and installing air conditioning unit | 186 |
| 14.1 | Removing | 186 |
| 14.2 | Installing | 187 |
| 15 | Dismantling and assembling air conditioning unit | 190 |
| 15.1 | Removing and installing covers in plenum chamber, fresh air blower and evaporator | 190 |
| 15.2 | Dismantling and assembling bottom part of housing and air distribution housing | 193 |
| 15.3 | Dismantling and assembling air distribution housing | 196 |
