93	Electric drive systems	1
1	General warning instructions for work on the high-voltage system	1
1.1	General warning instructions for work on the high-voltage system	1
1.2	Warning labels	5
2	Overview of fitting locations - high-voltage components	7
3	Description of high-voltage technology	9
3.1	Maintenance connector for high-voltage system -TW-	9
3.2	Electrical air conditioner compressor V470	9
3.3	Brake servo vacuum pump V469	9
4	High-voltage battery unit	11
4.1	General description - high-voltage battery unit	11
4.2	Exploded view - high-voltage battery	11
4.3	Removing and installing high-voltage battery	12
4.4	Charging high-voltage battery	19
5	Power and control electronics for electric drive	22
5.1	General description - power and control electronics for electric drive	22
5.2	Removing and installing power and control electronics for electric drive	23
6	Electric drive motor	32
6.1	General description - electric drive motor	32
6.2	Removing and installing electric drive motor	32
7	High-voltage wiring	36
7.1	General description - high-voltage wires	36
7.2	Overview of fitting locations - high-voltage wires	37
7.3	Identification of high-voltage wiring	37
7.4	Removing and installing high-voltage wiring harness for high-voltage battery	39
7.5	Removing and installing high-voltage wiring harness for drive motor	44
7.6	Removing and installing high-voltage wire for electrical air conditioner compressor	50
8	Cooling system for high-voltage components	55
8.1	General description - cooling components for high-voltage system	55
9	De-energising high-voltage system	56
10	Re-energising high-voltage system	57
11	Potential equalisation lines	58
