| <b>00 - Technical data</b>   | <b>1</b>  |
| <b>1 Safety information</b>  | <b>1</b>  |
| 1.1 Safety precautions when working on air conditioning systems                                  | 1         |
| 1.2 Safety measures for working on vehicles with high-voltage system                             | 1         |
| 1.3 Safety precautions when working in the vicinity of high-voltage components                   | 2         |
| 1.4 Safety measures when working on vehicles with a start/stop system                            | 3         |
| 1.5 Safety precautions when using testers and measuring instruments during a road test           | 3         |
| 1.6 Safety precautions when working on the cooling system  | 3         |
| 1.7 Safety precautions when handling refrigerants  | 3         |
| 1.8 Safety precautions for working on vehicles with auxiliary/supplementary heater               | 4         |
| <b>2 General information</b>   | <b>6</b>  |
| 2.1 Type plates  | 6         |
| 2.2 Notes concerning odours in air conditioned vehicles  | 7         |
| 2.3 Notes for vehicles with start-stop system  | 8         |
| 2.4 Notes on dust and pollen filter  | 9         |
| <b>3 Repair notes</b>  | <b>10</b> |
| 3.1 Rules for cleanliness  | 10        |
| 3.2 Nuts and bolts   | 10        |
| 3.3 Checking heater output   | 11        |
| 3.4 Checking cooling output  | 13        |
| 3.5 Working on refrigerant circuit   | 15        |
| 3.6 Paint work on vehicles with air conditioning system  | 16        |
| 3.7 Refrigerant circuit seals  | 16        |
| <b>4 Technical data</b>  | <b>17</b> |
| 4.1 Refrigerant capacity   | 17        |
| 4.2 Refrigerant oil capacities   | 17        |
| 4.3 Oil distribution   | 18        |
| <b>80 - Heating</b>  | <b>19</b> |
| <b>1 Overview of fitting locations - heating</b>   | <b>19</b> |
| 1.1 Overview of fitting locations – components not located in passenger compartment              | 19        |
| 1.2 Overview of fitting locations - components located in front section of passenger compartment | 20        |
| <b>2 Heater</b>  | <b>21</b> |
| 2.1 Assembly overview – heater unit  | 21        |
| 2.2 Removing and installing flexible shafts  | 23        |
| <b>3 Control motors</b>  | <b>28</b> |
| 3.1 Removing and installing fresh air and air recirculation flap control motor V154              | 28        |
| <b>4 Air duct</b>  | <b>29</b> |
| <b>5 Operating and display unit</b>  | <b>30</b> |
| 5.1 Overview of operating and display unit   | 30        |
| 5.2 Removing and installing operating and display unit   | 32        |
| <b>6 Other controlling and regulating components</b>   | <b>35</b> |
| <b>87 - Air conditioning system</b>  | <b>36</b> |
| <b>1 Overview of fitting locations - air conditioning system</b>                                 | <b>36</b> |
| 1.1 Overview of fitting locations – components not located in passenger compartment              | 36        |
| 1.2 Overview of fitting locations - components located in front section of passenger compartment | 38        |
| <b>2 Refrigerant circuit</b>   | <b>41</b> |
| 2.1 System overview - refrigerant circuit  | 41        |
| 2.2 Assembly overview – condenser  | 43        |

|          |  |            |
|----------|--|------------|
| 2.3      | Removing and installing high-pressure sender G65                                       | 44         |
| 2.4      | Removing and installing expansion valve  | 45         |
| 2.5      | Removing and installing condenser  | 50         |
| 2.6      | Removing and installing desiccant bag or cartridge                                     | 53         |
| 2.7      | Removing and installing evacuating and charging valves on low and high-pressure side   | 56         |
| 2.8      | Removing and installing refrigerant line from condenser to evaporator                  | 58         |
| 2.9      | Removing and installing refrigerant line from condenser to air conditioner compressor  | 62         |
| 2.10     | Removing and installing refrigerant line from air conditioner compressor to evaporator | 69         |
| <b>3</b> | <b>Air conditioner compressor</b>  | <b>78</b>  |
| 3.1      | Assembly overview – drive unit of air conditioner compressor                           | 78         |
| 3.2      | Removing air conditioner compressor from and installing on bracket                     | 79         |
| 3.3      | Removing and installing air conditioner compressor                                     | 83         |
| 3.4      | Checking high-pressure safety valve on air conditioner compressor                      | 92         |
| <b>4</b> | <b>Control motors</b>  | <b>94</b>  |
| 4.1      | Overview of fitting locations – control motors at front                                | 94         |
| 4.2      | Removing and installing temperature flap control motor V68                             | 96         |
| 4.3      | Removing and installing centre flap control motor V70                                  | 98         |
| 4.4      | Removing and installing defroster flap control motor V107                              | 99         |
| 4.5      | Removing and installing air recirculation flap control motor V113                      | 101        |
| 4.6      | Removing and installing left temperature flap control motor V158                       | 105        |
| 4.7      | Removing and installing right temperature flap control motor V159                      | 107        |
| 4.8      | Removing and installing fresh air/air recirculation, air flow flap control motor V425  | 109        |
| 4.9      | Removing and installing air distribution flap control motor V428                       | 112        |
| <b>5</b> | <b>Front heater and air conditioning unit</b>  | <b>113</b> |
| 5.1      | Assembly overview – heater and air conditioning unit                                   | 113        |
| 5.2      | Assembly overview – evaporator housing   | 118        |
| 5.3      | Removing and installing evaporator   | 118        |
| 5.4      | Checking auxiliary air heater element Z35  | 120        |
| 5.5      | Removing and installing auxiliary air heater element Z35                               | 123        |
| 5.6      | Removing and installing heater and air conditioning unit                               | 127        |
| 5.7      | Dismantling and assembling heater and air conditioning unit                            | 134        |
| 5.8      | Removing and installing air distribution housing                                       | 136        |
| 5.9      | Removing and installing dust and pollen filter   | 138        |
| 5.10     | Removing and installing fresh air blower V2  | 140        |
| 5.11     | Removing and installing fresh air blower control unit J126                             | 141        |
| 5.12     | Removing and installing heat exchanger   | 142        |
| 5.13     | Removing and installing coolant pipes on heat exchanger                                | 155        |
| 5.14     | Removing and installing evaporator temperature sensor G308                             | 159        |
| 5.15     | Removing and installing condensation drain   | 160        |
| 5.16     | Checking condensation drain  | 160        |
| 5.17     | Removing and installing baffle plate   | 161        |
| 5.18     | Removing and installing fresh air blower series resistor with overheating fuse N24     | 162        |
| <b>6</b> | <b>Air duct</b>  | <b>164</b> |
| 6.1      | Assembly overview – air duct and air distribution in passenger compartment             | 164        |
| 6.2      | Removing and installing driver side footwell vents                                     | 166        |
| 6.3      | Removing and installing front passenger side footwell vents                            | 167        |
| 6.4      | Removing and installing rear footwell vent   | 168        |
| 6.5      | Installing plug in air duct to centre vent   | 169        |
| 6.6      | Removing and installing air ducts  | 170        |
| 6.7      | Removing and installing forced ventilation for passenger compartment                   | 171        |
| 6.8      | Checking forced ventilation for passenger compartment                                  | 172        |
| 6.9      | Removing and installing fresh air intake   | 172        |
| 6.10     | Removing and installing intake duct  | 173        |
| 6.11     | Removing and installing air duct for defroster vent                                    | 174        |
| 6.12     | Removing and installing air duct for centre dash panel vent                            | 175        |

|          |  |            |
|----------|--|------------|
| <b>7</b> | <b>Operating and display unit</b> .....  | <b>176</b> |
| 7.1      | Overview of operating and display unit .....                                   | 176        |
| 7.2      | Removing and installing operating and display unit .....                       | 180        |
| <b>8</b> | <b>Other controlling and regulating components</b> .....                       | <b>183</b> |
| 8.1      | Removing and installing sunlight penetration photosensor G107 .....            | 183        |
| 8.2      | Working principles of air quality sensor G238 .....                            | 184        |
| 8.3      | Removing and installing air quality sensor G238 .....                          | 186        |
| 8.4      | Removing and installing ambient temperature sensor G17 .....                   | 187        |
| 8.5      | Removing and installing humidity sender for air conditioning system G260 ..... | 187        |
| 8.6      | Removing and installing left vent temperature sender G150 .....                | 187        |
| 8.7      | Removing and installing right vent temperature sender G151 .....               | 188        |
| 8.8      | Removing and installing left footwell vent temperature sender G261 .....       | 189        |
| 8.9      | Removing and installing right footwell vent temperature sender G262 .....      | 189        |
